

RECOMMENDED COURSE ELECTIVES IN MS METEOROLOGY

(New Curriculum)

FOR EACH AREA OF SPECIALIZATION

Weather	Meteo 223 Radar Meteorology Meteo 255 Cloud and Precipitation Physics Meteo 233 Geophysical Fluid Dynamics Meteo 234 Numerical Weather Prediction Meteo 204 Tropical Meteorology
Climate	Meteo 203 Methods of Analytical Meteorology and Oceanography Meteo 212 Climate Monitoring and Prediction Meteo 222 Satellite Meteorology Meteo 204 Tropical Meteorology Meteo 213 Agrometeorology
Environmental Meteorology	Meteo 213 Agrometeorology Meteo 206 Hydrometeorology Meteo 224 Air Pollution Env Sci 212 Environmental Problems and Issues Env Sci 282 Environmental Planning, Risk, and Assessment

* At least three electives must be taken within the area of specialization subject to the approval of the Adviser

Other electives (in addition to the recommended electives for each area of specialization):

Meteo 205 Atmospheric Science for Teachers

Meteo 232 Advanced Dynamic Meteorology

Meteo 297 Special Topics
